

SAPHNA AIMS TO:

ARTICULATE the interests of school and public health nurses locally, nationally and internationally;

BUILD an organisation driven and directed by the needs of professionals and celebrate the diversity of the communities which they serve;

COMMIT to the advancement of the profession through building our resource of expertise and innovation in practice;

INFLUENCE Department of Health, Department for Children, Schools and Families, education and others to develop and implement policies that promote integrated service provision and the health and well-being of current and future populations.

SAPHNA OFFERS:

- A Professional Officer;
- Expert UK wide Committee;
- Links with the British Journal of School Nursing;
- Links with Voice, the union for Educational Professionals.
- Participates in local, regional and national events to promote best practice;
- Annual conference;
- Website
- Dedicated enquiry line;
- A political base for influencing Government decision-making.
-

School and Public Health nurses have consistently called for a professional organisation that is dedicated to their needs. Having been a marginalised workforce for many decades, there has never been a better time to work in the profession.

SAPHNA has been formed by a group of experienced School and Public Health Nurses from all around the UK. It is a professional organisation dedicated to the promotion of excellence in practice, taking forward the public health agenda by working in partnerships for the benefit of children and young people and the communities where they live and learn.
