

Masterclass – Management of Patients with Lung Disease
Wednesday 28th July 2010
Department of Child Health Medicinema, Yorkhill

About the Masterclass

The University of Glasgow has organised this masterclass on the management of patients with lung disease. The aim is to update knowledge, provide best practice in management and treatment of COPD, as well as sleep disorders related to lung disease. The masterclass will also highlight new research.

The programme will be delivered by leading experts and you will hear/take part in in-depth discussion about the practical application of current guidelines. The masterclass will also help you meet your needs for Continuing Professional Development; a certificate of attendance will be given.

Who Should Attend

- * Practice Nurses
- * Respiratory and other nurses
- * GPs
- * Healthcare Managers
- * Occupational Therapists
- * Pharmacists
- * Other Interested Primary Health Care Professionals
